Allergies Chart Tab Features

Last Modified on 03/05/2025 11:43 am EST

Allergen Search

The "Add Allergen" search bar allows a user to find an allergen to add to the selected patient's chart. When a user begins typing in the search box, a list of results is displayed. Any allergens listed with a black "?" are non-codified and will be excluded from interaction checks.

dd Allergen	lisi 🗙 🔍 🗸	Reviewe

	lisi new	
Alert Descrip Bactrim	alpelisib	
Celebre ? Pollen	copanlisib copanlisib di-hydrochloride	~
	Insulin Glulisine	

Favorites List Search

If a user selects the drop-down to the right of the search box, a list of allergens will be displayed. The system generates this list based on allergens that are used most frequently.

Allergen List Summary

The Allergen List Summary displays the patient's active list of allergens, along with the symptoms, alerts, and verification status. Each allergen is selectable in case any updates are needed.

D 1	New 🖹 Save 🧐 History 🔹 📑 Defaults 🖳 Patient 🔹 🚥 More 🔹	
Add	Allergen	Reviewed
	Summary	
Alert	Description	Verify
	Acetaminophen	
	Acetazolamide	Unconfirmed
2	butter	
	Flexeril	Refuted
	Gluten	Confirmed
	No Known Drug Allergies	
	Peanut	Unconfirmed

Allergen Symptoms Window

The Allergen Symptoms window is available when adding a new allergen or when an existing allergen is selected from the Allergen Summary. This window allows the user to access and update all symptoms and/or severity for each allergen. Removing an allergen is also in this window.

The symptoms window will display the following elements:

- Symptom: #1-5
- Comment: Free Text field
- Severity: Mild, Moderate Severe
- Verify: Unconfirmed, Confirmed, Refuted, Entered-in-error
- Remove Allergen: Checkbox
- Always display window on a new allergen: Checkbox

Allergen List History

	New	🖹 Save 🛛 📝 Details 🔻 🕒 Copy 🛛 🛃 Patient 🔻 👓 More 🔻	
		History	
Aler	t Active	Description	Verify
	Yes	Acetaminophen	
	Yes	Acetazolamide	Unconfirmed
2	Yes	butter	
	Yes	Flexeril	Refuted
	Yes	Gluten	Confirmed
	Yes	No Known Drug Allergies	
	Yes	Peanut	Unconfirmed
	No	Beeswax-Allergen-Ingredient	
	No	avobenzone	
	No	Acetylleucine	
	No	Ace Inhibitors	
2	No	Pollen	
	No	Ace Inhibitors	

Nearly all the features and functionality that apply to the 'Allergy List Summary' window also apply to the history. The major difference is that the history will display all allergies, including those that have been removed.
