

Setup the AlertMD Integration

Last Modified on 04/15/2024 10:15 am EDT

Access

In order to access the AlertMD process several key items must be activated for the practice. This includes contacting iSalus to setup the integration for your practice.

Features

In order to have a feature activated, the practice must request this from iSalus by contacting our support team.

The support team will need to activate the following product:

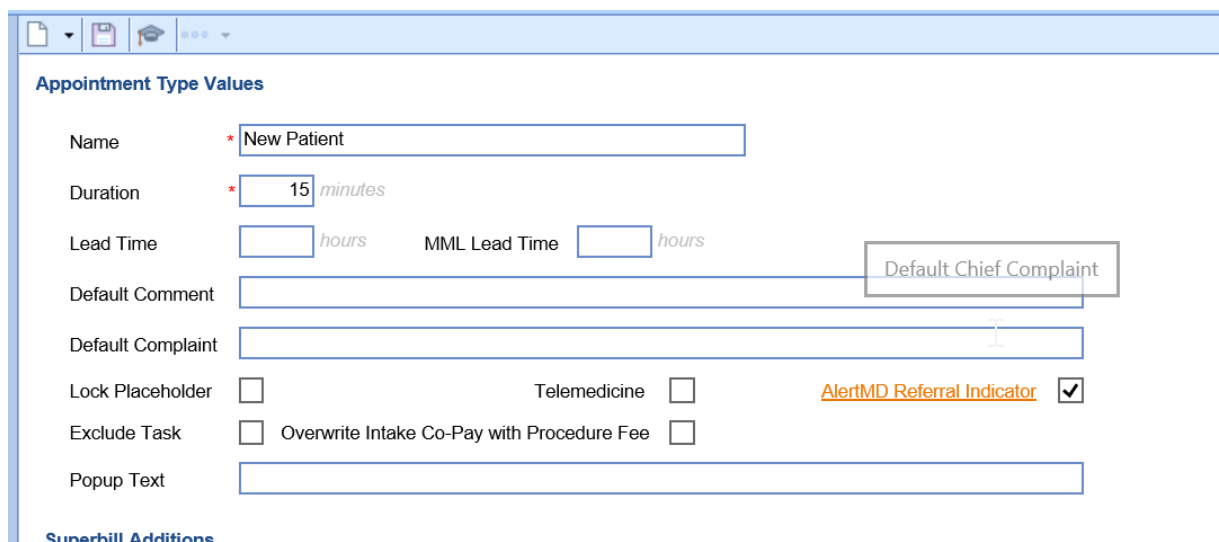

- AlertMD

The team will also configure HL7 interfaces for ADT (Demographics) and SIU (Scheduling) integrations that facilitate the process.

Appointment Type Settings

The AlertMD integration allows for both Referral and Recall management. Both processes utilize the 'Recall' list within the iScheduler. To distinguish between a Referral and a Recall, the Appointment Type must determine this.

1. Navigate to **Setup > Appointment Types**
2. Select the appointment type that would be considered a Referral
3. Check the **AlertMD Referral Indicator** checkbox

The screenshot shows a web-based form titled "Appointment Type Values". The form contains several input fields and checkboxes. The "Name" field is labeled with a red asterisk and contains the text "New Patient". The "Duration" field is also labeled with a red asterisk and contains "15 minutes". The "Lead Time" field contains "hours" and the "MML Lead Time" field contains "hours". The "Default Comment" field is empty. The "Default Complaint" field is empty. The "Lock Placeholder" checkbox is unchecked. The "Telemedicine" checkbox is unchecked. The "AlertMD Referral Indicator" checkbox is checked, with the text "AlertMD Referral Indicator" in orange. The "Exclude Task" checkbox is unchecked. The "Overwrite Intake Co-Pay with Procedure Fee" checkbox is unchecked. The "Popup Text" field is empty. A box labeled "Default Chief Complaint" is positioned over the "Default Complaint" field. At the bottom of the form, there is a section labeled "Superhill Additions".

Name	*	New Patient
Duration	*	15 minutes
Lead Time		hours
MML Lead Time		hours
Default Comment		
Default Complaint		
Lock Placeholder	<input type="checkbox"/>	
Telemedicine	<input type="checkbox"/>	
AlertMD Referral Indicator	<input checked="" type="checkbox"/>	
Exclude Task	<input type="checkbox"/>	
Overwrite Intake Co-Pay with Procedure Fee	<input type="checkbox"/>	
Popup Text		

4. Click **Save**
