

# Patient Rx History Consent

Last Modified on 10/02/2025 5:18 pm EDT

The Patient Setup > Rx Hist. Consent field captures whether a patient consents to the practice pulling the RxHub Patient Medication History for them. Follow these steps to access/update this setting for a patient:

1. Open the **Patient Setup** screen for the appropriate patient.

2. Click on the **Demographics** tab.

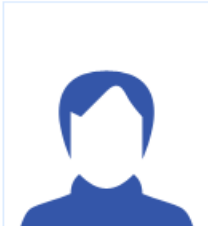

3. Select the **Rx Hist.** field and choose the **Consent Given** option if the patient consents to the practice pulling the RxHub Medication History report.

A screenshot of the 'Patient Setup' screen showing the 'Demographics' tab. The form includes fields for Name (First: Winston, Middle: Barnaby, Last: Addington, Nick, Suffix: 3rd), Address (178 Paradise Crescent, Royal Palm Beach, FL 33411), Gender (Male), Ethnicity, Race, Language (English), and Contact information. The 'Rx Hist.' field is expanded, showing a dropdown menu with options: 'Consent Given' (highlighted), 'No Consent', 'Parental/Guardian Consent', 'Parental/Guardian Prescriber Only', and 'Prescriber Only'. The 'Consent Given' option is selected.

4. Press the **Save** button.
