

Electronic Prescriptions SCRIPT 2017071 Release Checklist

Last Modified on 12/12/2024 8:36 am EST

Practices who utilize the application's Prescriptions/Medications and Task Prescriptions modules should have appropriate medical staff complete the following tasks before and after the January 22, 2022 release:

Pre-Release Checklist

- Check out the webinar!
- Review the [release notes](#).
- Respond to all pending Refill Requests.

Any prior SCRIPT version refill requests in the Unsolicited/Pending Refill Request queues at the time of release will be automatically placed in the Completed Refill Request queue. A pharmacy may send a follow-up refill request after 48 hours of no response.

Post Release Checklist

- Configure My Tasks - Refills Queue Assignment Setup.
 - Configure My Tasks - Changes Queue Assignment Setup.
-
