

User Setting: Hide Order Processor and Status in Result Findings

Last Modified on 03/04/2024 11:38 am EST

The setting is used to determine if the Order Processor and Status fields are displayed in the Result Findings/Activities screen. When checked, Company Setting: *Hide Order Processor and Status in Result Findings* will hide the Order Processor and Order Status fields from the Result Findings/Activities screen.

The screenshot shows a form titled "Add Result Findings/Activities". It contains the following elements:

- Finding/Activity:** A text input field with a green checkmark and a red exclamation mark icon to its left.
- Ord. Processor:** A dropdown menu with "Order User or Group" selected.
- Order Status:** A dropdown menu with "Order Status" selected.
- Send to MML:** A checkbox labeled "Send to MML (Not Connected)".
- Comments to Patient:** A text area for entering comments.
- Result Processor:** A dropdown menu with "*Support Nurses" selected.
- Set Result Status to Closed:** An unchecked checkbox.
- Finding Narrative:** An unchecked checkbox.
- Refresh results list after save:** An unchecked checkbox.
- Save:** A button at the bottom right.

Default Value: Off

Options:

- On (checked) and Off (unchecked)
 - *Apply to all users* checkbox (enables it for "all users").
-
