OfficeEMR Mobile - iOS v 5.11.1 (206) - June 13th, 2024

Last Modified on 06/14/2024 12:35 pm EDT

New Features

- <u>OfficeEMR Mobile Enhancements:</u> Added some enhancements to the **OfficeEMR Mobile App** that include new menu items, filters, and results.
 - <u>U12324 OfficeEMR Mobile | Add Tasks Menu Item: Results & Counts:</u> A new menu item for Results has been added to the Tasks section of the OfficeEMR Mobile app. This update also includes badge icon counts on both the home screen and within the Tasks menu, which is determined by the open_results_received element in the ToDoCounts response.

 <u>U12328 - OfficeEMR Mobile | Create Results Menu - Filter:</u> A new "Results" page has been created in OfficeEMR Mobile (Home > Tasks > Results). Additionally, new search and filter options have been added to the navigation bar, allowing users an extra level of filtering.

- They can tap the filter icon on the top right and filter the list by the result options (5):
 - Open Pending Results
 - Open Results Received
 - Closed Completed

- Closed No Results
- Closed No Findings

- <u>U16753 OfficeEMR Mobile | Display List of Order Results My Tasks</u>: Added support to the My Tasks > Order Results screen enabling it to return the requisitions/results and when a filter is changed, to update and reload the URL for the given requisition accordingly.
- <u>U16754 OfficeEMR Mobile | Display List of Order Results Patient Chart</u>: Added support to the Open Patient Chart > Order Results screen, allowing it to return requisitions/results when a filter is changed. This function is similar to the My Tasks > Results list but is specific to a single patient.
- <u>U17237 OfficeEMR Mobile | Show Activity / Add Finding History:</u> Added support within various screens to access the Result Findings/Activities screen. This update allows users to see the history of findings/activities for a selected result, ordered from newest to oldest, with indications if it has been shared with the patient via MML.
 - From the ellipsis (...) icon

From the Add Findings > Clock/History icon
