

Introduction to the Dialysis Survey Report

Last Modified on 01/21/2025 12:58 pm EST

Beta through February 2025

The dialysis survey report provides a list of patients who meet filter options set for appointment date range and designated problem list items. Patients meeting the filter criteria are returned in the Diabetic Survey Report data with their most recent date appointment and then general demographic data including the patient's next (future) appointment detail and details on the patient's status (On or Off) drug classes ACE, ARB, SGLT2, MRA, and GLP1. Where the patient does have an active prescription for one of these drugs we provide the brief medication details.

Report Output Example:

patient_id	PatientFullName	ProviderFullName	AppointmentDateTime	Primary Nephrologist	DM	CKD	PU	ACE	ARB	SGLT2	MRA	GLP1	ACE Desc	ARB Desc	SGLT2 Desc	MRA Desc	GLP1 Desc
91345	Doe, John First	Smith, James	12/30/2024 16:00	Brain, Brian MD		N183, N1831		off	ON	off	off	off		losartan 100 mg tablet			
78994	Hicks, Alpha	McMahan, John	12/30/2024 16:00	Holt, Colt MD		N182, N183, N181		ON	off	off	ON	off	lisinopril 20 mg tablet				spironolactone 25 mg tablet
73327	Smith, Sue	McShan, John	12/30/2024 16:00	McNew John M.D.		N182		R809	off	off	off	off					
119702	Pu, Bench	Smith, James	12/30/2024 15:40	NULL		N1832		ON	off	ON	off	off	lisinopril 20 mg tablet		Jardiance 10 mg tablet		
82565	Shult, Roger	McMahan, John	12/30/2024 15:20	Holt, Colt MD		N181, N182, N183, N1831, N1832, N184		R809	ON	off	off	off	lisinopril 10 mg tablet
