

Viewing requested records in Sharing History

Last Modified on 03/27/2025 6:09 pm EDT

You can review all the previously requested documents or records by navigating to the Sharing History tab.

1. Once in a patient's chart, select the **Surescripts Record Locator** chart tab.

2. Search for documents using the available filters.

3. Click Sharing History.

4. An audit history of all the previously requested records is available with the requester, the date, and a link to view the document.
