

How to Generate/Use the Support Pin

Last Modified on 05/23/2025 4:50 pm EDT

When contacting support to create a ticket via phone or email, you will be required to provide a 6-digit PIN to validate your identity during the Support process. This user-level Support PIN is generated within the application and is good for 24 hours.

Generating a Support Pin

1. Access the **iSalus Support Pin** option by clicking on the 'keypad icon' in the upper right corner of the application.

2. When the "Support PIN" window opens, Click **Generate**.

Support Pin

Provide this number to the iSalus Support team when requested. This pin assists us in validating your identity when entering a case via Phone or Email. You may also use the **Log a Support Ticket** screen for streamlined validation.

Generate

3. Provide the 6-digit PIN to the support representative when requested. Alternatively, include the pin # on the email request.

Regenerate

Please be aware that clicking "Regenerate" will generate a new pin. The newly generated pin will be the active pin for validation. Validation is required for tickets created by calling the Support Team at

877.280.6640 or by emailing support@isalushealthcare.com. Please note that generated PINs are valid for only 24 hours. You may also use the "Log a Support Ticket" screen for streamlined validation.
