Beta Feature: Want early access? Reach out to your CSM or create a support case request Beta access

Emergency Contact Tab (Related Person)

Overview

Emergency Contact now reflects USCDiv3 "Related Person" compliance requirements. Existing information within this screen has been preserved and properly mapped to the designated USCDiv3 fields and expands the selections available to users as is required by CMS.

Key Updates

- Primary and Secondary contacts labeled more clearly.
- Users can switch which contact is designated as primary utilizing the radio buttons above the name field without losing contact details.
- The new eraser icon allows users to easily delete contact details.
- Permissions for PHI access, medication pickup, and detailed messaging retained.
- Relationship drop-down delivers several more options for relationship designation (in accordance with USCDiv3 requirements).
- Modernized UI aligned with other updated screens.
