The "**Patient Cost Estimator - Insurance - Disclaimer Displayed on Printed Estimate**" company setting allows a practice to configure the disclaimer for Cost Estimates to automatically detect when the patient is insured (not self-pay) and pull the correct disclaimer accordingly. You can use the default disclaimer, or create your own (up to 1000 characters).

Underneath, there are four fields: "Value", "Rule", "Tool Tip", and a large text area. The "Value" field contains a long disclaimer text. The "Rule" field is set to "Text Area between 1 and 1000 characters". The "Tool Tip" field contains the text "Disclaimer displayed in footer of printed estimate". The large text area is empty.
