

MIPS Reporting 2026

Last Modified on 10/29/2026 1:45 pm EDT

MIPS 2026 Reporting at a Glance

Certified EHR. Automated data prep. Reporting support.

CHPL Certified Health IT. OfficeMD automatically builds MIPS data from your clinical documentation based on configuration & subscription - delivering only the report data you choose. Manage reporting yourself or hire our MIPS Assist team to guide you.

2026 CMS EHR Certification ID# 2026CJP85U55SXY

CERTIFICATION AT A GLANCE

The complete product combination matters.

CHPL allows certified products to work together to meet the Base EHR requirements. OfficeEMR shows 90% for our built in MIPS reporting support and when you include our integrated CQM partner solution Mingle Health, our software is 100% MIPS compliant.

10%

Mingle Certified CQM Covering Quality Reporting §170.315(c)(1)

=

100%

Combined coverage Base EHR criteria + CQM solution configuration delivers full MIPS reporting

Need help verifying your configuration? Contact our [Support team](#).

Configure. Document. Report.

Configure

Set your reporting approach

Set the year, clinicians or groups, reporting period, and enroll if you want to perform quality reporting using Mingle Health (subscription required).

Document

Data preparation is automatic

Continue documenting care. OfficeEMR builds applicable reporting data based on your setup and enabled products.

Report

Review and submit

Use your dashboard and reporting outputs, or work with your reporting partner to perform reporting checks and to submit reporting data.

You have all the tools needed to report on your own, if desired. Your clinical documentation supplies the data. Automatic preparation supports reporting you choose to perform via configuration and subscription. Periodic reviews, final reviews, attestations, and submission need an assigned owner who ensures your compliance throughout the reporting year.

Optional professional service

Want less work for your team or just need help?

MIPS Assist is our internal program subscriptions that provides personalized, white-glove reporting assistance. Ask about our fee-based program and the services available for 2026.
